

Bachelor of Science in Biomedical Engineering

The Department of Biomedical Engineering offers Fall admission to students interested in the undergraduate program in Biomedical Engineering. All interested students must:

1. Meet all of UTSA's admission requirements and apply to UTSA
2. Meet the [College of Engineering admission requirements](#)
3. Have credit for MAT 1214 Calculus I OR have completed all necessary prerequisites to enroll in MAT 1214 Calculus I (through a mathematics placement test taken during orientation, or credit for MAT 1093 Pre-calculus or an equivalent).

In addition, students considering the Fall admission to the Biomedical Engineering program must also **submit the following supplemental documents by July 31st**:

1. A cover page containing two references and the Declaration of Intent form to be considered as a Biomedical Engineering Major (see below)
2. A copy of the High school and/or College transcripts
3. A one page statement of their interests, professional career goals and how the Biomedical Engineering program will help them achieve those goals.

All supplemental documents are to be addressed to:

BME@utsa.edu

Admission status will be made known to the students once application is received and processed (2 weeks approximately). **Note that admissions to the program will be competitive and meeting the aforementioned requirements does not guarantee admission to the program. Admission will be restricted only to the most qualified applicants.** Students accepted to the BME program but fail to register for MAT 1214 Calculus I or higher in the first Fall semester after admission will have to reapply for program admission. Note that reapplication does not guarantee admission to the program. All BME students must also keep in mind that they are required to maintain a GPA of 3.0 or better for their duration in the program. **See Program Description for additional information on admissions, course description, and requirements for good academic standing.**

Declaration of Intent to be Considered as a Biomedical Engineering Major

I, _____, _____, have read and understood the
(Name of Student) (UTSA Banner ID)

above criteria for admission to the Biomedical Engineering program **and wish to be considered for admission to the undergraduate program in Biomedical Engineering at UTSA.** I also understand that all supplemental documents need to be submitted to the Department of Biomedical Engineering by **July 31st** in order to be considered for the fall admission.

- I am an Incoming UTSA Freshman
- I am a current UTSA student and wish to be considered for transfer to the BME program
- I am a transfer student from another institution and wish to be considered for the BME program
