

October 8, 2018

Dear UTSA Engineering Student,

Every year, the San Antonio ACI Chapter does its best to provide funding to civil engineering students at UTSA. This ACI scholarship is one that the San Antonio ACI Chapter prides itself on and plans to keep in place to continue to help facilitate the financial needs of engineering students looking to make a career in the field of civil engineering. Each student that receives the scholarship will receive a minimum of \$2,000 but depending on the number of applicants, this amount may increase.

Attached to this letter is the San Antonio ACI Chapters Student Scholarship application. Please fill out the information asked for and provide the other items mentioned. Based on the number of applicants, an interview may be required prior to awarding the scholarships. The number of scholarships being awarded depends on the number of applicants since the San Antonio ACI Chapter tries to help as many students as possible with the funds set aside for the scholarship.

The San Antonio ACI Chapter has minimum requirements to meet the scholarship qualifications but will consider every application received even if the minimum requirements are not met in their entirety. We encourage every student to apply for this scholarship regardless if you feel like you will not meet the requirements in comparison to other students attending UTSA. If you are awarded the scholarship and are able to attend the ACI Holiday Party, you will be asked to give a short 5-minute maximum presentation about your future aspirations in engineering.

Thank you for taking the time to apply for the San Antonio ACI Chapter student scholarship. If you have any questions, please feel free to e-mail the San Antonio ACI Board – Student Liaison at mike@beicker.com.

San Antonio ACI Chapter - Student Liaison
